Everything starts from materials: without them being of prime quality, manufacturing highest range products is, simply, impossible. That's why Rugiano carefully selects noble materials such as bronze, brass and steel and utilizes leather and fabric of the highest quality.

For the same reason, all the production processes are carried out internally and constantly monitored, making sure that every single detail is carefully checked. That's how Quality is created.

*Tutto parte dalla materia prima: senza materiali di qualità non si possono fare prodotti di qualità. Per questo Rugiano utilizza per le proprie creazioni metalli nobili come bronzo, ottone e acciaio e si serve di pelli e stoffe di primissima scelta.*

*E per questo esegue tutte le lavorazioni internamente, curando ogni particolare, anche il più piccolo e nascosto.*

*Così nasce la qualità.*

A close-up, high-angle photograph of a leather saddle seat. The seat is covered in a light-colored, textured leather, possibly suede or nubuck, and features several layers of double-stitched leather piping along its edges. The stitching is a contrasting dark color, creating a rhythmic pattern of lines. The saddle is mounted on a dark wooden frame, with the seat curving downwards. The lighting is soft and directional, highlighting the texture of the leather and the precision of the craftsmanship.

## BRAID

The kind gesture of the hug is represented by the finely crafted intertwining of the shell covered in leather or saddle leather. A shell that showcases the guidelines of Rugiano's productions, such as craftsmanship skills and a made in Italy knowhow.
